

PLANTER

FOR IMPEDER/STOPPER BOLLARDS

1No. Planter sits over 1No. Bollard Unit without compromising the HVM performance. To ensure compliance with BSI PAS 69 and IWA 14 - 2, the distance between each Bollard must be a maximum of 1.2m. This measurement is taken from the inside face of the bollard that sits within the external sleeve at a height of 600mm. Please note the rendered images shown are for visual purposes only. To discuss your requirements please contact our team.
